

Instructions on How to Merge Files

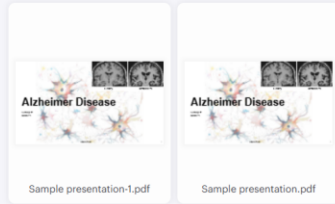

To improve the judging process, applicants will need to upload all required documents into one file. To merge documents together into a single PDF file, visit the following website [Merge PDF files online. Free service to merge PDF](#). Click the “Select PDF files” button, a new window will open. Select your files that you wish to merge and then click “Open”.

Note you do not need to be signed into the above free website service to merge and download documents into a single file. To watch a full video on how to merge files with the love PDF, watch this video [iLovePDF](#).
